

Skills2Succeed in Collaboration with **Global Educational & Consulting Services**

PRESENTS

**BIDDING PROCESS AND
EFFECTIVE CONTRACT MANAGEMENT**

OBJECTIVE:

Learn how to get unmatched credibility and competitive Advantage in the bidding/contracting process!!!

DESCRIPTION:

The majority of contracts are negotiated by competitive bidding/contracting procedures. All too often shortcomings in the application of these procedures lead to delays, extra costs, disputes and, sometimes-legal actions. In seeking to avoid such pitfalls this seminar provides a comprehensive but compact procedure/process to competitive bidding. Properly prepared contractors, subcontractors, engineers, and developers can avoid anticipated liability, poor quality/reduce performance/disputes and receive payment for work performed. Weakness in effective contract management generally stems from the absence of right process and procedures. This seminar will define the practical and other issues involved in bidding/contracting management along with the obligations of each participant in these activities and how the disputes related to construction contracts both in public and private sectors can be addressed.

HOW YOU WILL BENEFIT:

You will:

- **Obtain** a practical review of bidding/contracting process;
- **Learn** how to prepare bidding/contracting documents and manage contracts;
- **Learn** how to interpret clauses, and analyze in the contracts, and get the project completed on time and within budget.
- **Develop** the ability and confidence to take control over contract administration in your organization and have a real impact on your bottom line.
- **Enhance** your knowledge of the contract management techniques including contract legality, constructability and the settlements of claims.

WHO SHOULD ATTEND:

Owners, building/general contractors, subcontractors, suppliers, developers, engineers, construction professionals and business-people of all disciplines and officials of government agencies responsible for the tender calls, negotiations or awarding of contracts. This seminar will also be of interest to municipal, provincial and federal agencies and anyone seeking an understanding of some of the most popular tools used in preparing, awarding and managing the contracts.

COURSE MATERIAL:

Each participant will receive a complete set of course notes and handouts that will serve as informative references.

PROGRAM OUTLINE:

Introduction

A Contract
Types of Tenders/Contracts

Bidding Procedure

Preliminary Investigation
Invitation to Pre-qualify/Advertisement
Issue and Submission of Pre-qualification Documents
Analysis of Pre-qualification Data
Selection & Notification of list of selected Contractors

COFFEE AND CONVERSATION

Bidding Process/Evaluation

Advertising
Issuing of Tendering Documents
Time Considerations
Background Information
Drawings
Specifications
Insurance
Bid Bonds
Visits to Site by Contractors
Amendments to Tendering Documents
Contractor's Queries
Submission of Tenders
Separate Contracts
Sub-contracts
Opening of Tenders
Evaluation of Tenders
Award of Contract

Lunch

Risk Management

What is it?
What is involved?
Level of Risk
Managing Risk

Benefits
Principles

Design-Build Process

Guidelines for Design-Build Method

COFFEE AND CONVERSATION

Contract Administration and Legal Perspective

The common categories of Construction Problems
What do you do at the start of the Project?
What do you do when construction is underway?
Construction Liens
Bonds
Liquidated Damages

Workshop/Case Studies

Open Discussion & Adjournment

SEMINAR LEADER:

Rishi Kumar, P.Eng., CQA, PMP is a Vice President-Engineering, Procurement & Construction (EPC) division at Global Technologies and Manufacturing (GTM) and leading major international infrastructure projects (railway, airport, luxury hotel developments, etc.) in various parts of Africa. Before joining GTM, Mr. Kumar served as a Director of Operations responsible for production, procurement, quality and logistics of AZZ-Blenkhorn and Sawle Ltd. plant located in St. Catharines. He successfully implemented lean-manufacturing and just-in-time concepts at this plant. Mr. Kumar obtained his Master of Science in Mechanical Engineering from University of Calgary. Since 1976, he has held many senior positions in utility, auto industry, research & development, service and consulting sectors in program and portfolio management of various capital projects. He has authored and co-authored technical papers on variety of topics and has presented at numerous national and international conferences. Since 1996 Mr. Kumar has conducted numerous professional development courses, seminars and workshops for various universities and professional organizations throughout Canada, USA, Europe and Central America.

Mr. Kumar is a certified Quality Auditor (internal and lead) and carried out several quality systems (technical, manufacturing and process) audits for ISO 9001 internationally. Mr. Kumar is an active participant in various professional boards and committees (PEO, PMP) since 1995 and also provides mentorship through various non-profit organizations in Ontario since 1994.

CONTINUING EDUCATION UNITS (CEUs):

Each participant will receive a certificate of course completion indicating 0.7 CEUs. CEUs are universally recognized nationally and internationally. One CEU is equivalent to ten (10) professional development hours (PDHs).

LOCATION:

Delta Toronto Airport West Hotel

5444 Dixie Road,
Mississauga, Ontario
L4W 2L2
